

Oneselves legs walk to day care
and archieved with be get jobs.
This aimed society position
reternig for one retire person.

石川先生の私の治療計画を瞑想法で見てのレポート

For doctors respect to cure target of live with day care to demand of life go to throw from live among parents. This aimed is to be get with jobs and works for future on oneself legs to live with society of public system. This archived to get the aimed, and day care for hospital in anyone to get the ticket to go to day care for being entrance of go out of hospital among cure lives. This target of aimed of persons are risky of home life from dengarous lives to go to day care, this select with persons are that oneself legs go to day care from long roads in one aspect routs is 4 km area. This area satisfact with being archieved with guraduation of day care. Return of norm is 8 km. This norm is be able to cure for body and mind to recieved with being walked with oneself cureness of mind. This aimed for archived targets of person risk with resistance of mind triger of being among life. This rescue schedules are clear from this select targets to be capacity of mind have with oneself of ones.

In this spectrum point is, oneself legs walk for day care, and oneself legs go to jobs place. This archieved day are completion of cure oneself and medicine is out of ones body and mind.

This archieved clear days, one point is this targets have with shames triger is be come to capacity of out of rage in walks in 8 km, this dengarous risky is this target resistant of mind triger this yellow card, or this target persons get retired with this aimed. This avoid target of persons to resist with this dengarous risky, and this target haven with doctors are be become with university of professor and moreover society skills aquired with potential positions. This targets of person become to think with envy and respect with the doctors.

This pychological aspect is shames and envy of heart with this targets of person how to triger from a aimed schedules. This interactive cure point also restructed with past of capacity remind oneself of archieved with one of same situations.

This pychological of interactive mind are constructed from the target of doctor themselves in capacity of mind triger this target of persons to go to day care with live in life from safy and to get jobs in society established days.

This also point is this targets are triger with shames and envy, illness, and capacity of mind in consident oneself. It is good points of this targets persons that this element go climb to oneself bad mind from walks in 8 km are good enough. This point also is blood pressure and blood essence of element are cure

of walks and day care achieved with throw works, go to home and sleep of capacity rescues oneself, and achieved with go out of day care.

In this among throw life of day care time, this target person oneself do zen, and this zen is be chunk of reading and other persons think what think read to this target person. This turning point is, this target person are acquired with other person what to think and future are what does happen in world of view.

This point are absolutely needed to this person acquired skills. And also this point is view that this reading to other person what to think is acquired from walks. Therefore, this read person skill are require of walk of mental potential capacity.

This skill among non walk need have persons also exists. This aimed is that target person return of consistent of oneself careness of mind.

This cure schedules are complimentation of oneself symphonians, and be able to cure themselves of sercadian rhythms and anarcism, encyclopedia, zipresisa required.

These schedules are template place with fields of catastrophe stimulate from doctor to target person of mind how to move for consciousness of cure routs, first demand, reject, reduct, contactness, satisfied, acceptance, non proliferation cleared. This target person where to routs of this field in catastrophe of mind, when reject routs go to mid, not able to suppress with go to day care, and how to routs in where to go in catastrophe routs exchanged with ways of cure to go to day care. Carefull of catastrophe of routs where to go, and will success to be achieved with target person oneself. Catastrophe of model in themselves are fold, cusp, swallow's tail, butterfly, hyperbolic umbilic elliptic umbilic, parabolic umbilic.

In case, fold field,

$$F = \frac{x^3}{3} + ax : R \times R \rightarrow R \subset B$$

$$B \supset F|_{R \times a}, \frac{\partial F}{\partial x} = x^2 + a = 0, \frac{\partial^2 F}{\partial x^2} = 2x = 0$$

in this point is, x decided to result,

$$B = \{0\} \subset R$$

This care point is $a < 0$ like mind of target person psychological catastrophe, in case, target person non able to go to day care, $a \geq 0$, in case, chance to go to day care possibility views of mind.

In remind target mind of singularity of catastrophe point come to struggle to do somethings, go to day care be carefulness.
